Information Systems student at BINUS University with hands-on experience handling registration and attendance data for 500+ students per day at campus events, and client-facing experience in sales and marketing roles. Practices data analysis with SQL, Python, Power BI and Excel through coursework and self-initiated projects shown in my portfolio, covering data cleaning, data modeling and dashboard design. Seeking a data analyst internship where I can turn data into clear, practical insights for business teams.

Education

Bina Nusantara University - **Tangerang, Indonesia** 2024 - Present
Bachelor of Information Systems, GPA 3.64/4.00

- Relevant coursework: Data Modeling (Excel, Power Pivot, DAX), Data Visualization (Power BI), Big Data and Cloud Database (Oracle).
